This is the content below the accordion header. You can swap the component instance to change content types.

This is the content below the accordion header. You can swap the component instance to change content types.

This is the content below the accordion header. You can swap the component instance to change content types.

Label

...

▼

A vertical stack of five accordion components. Each component has a header bar with the text "Label" and a toggle icon (three dots and an arrow). The first, third, and fifth components are collapsed, showing only the header. The second and fourth components are expanded, showing their respective content blocks. The content of the expanded components is identical: "This is the content below the accordion header. You can swap the component instance to change content types."
